CHRYSLER® 2019 KEY PROGRAMMING ADS2291

October 2019

Advanced Diagnostics is pleased to announce the release of a new update for Chrysler 2019 ADS2291 key programming software.

What does the software do?

ADS2291 software allows proximity keys to be added, or programmed from a lost key situation and has been designed to bypass the pincode automatically in the background or to read the pin (varies for each system) making it a seamless process when programming keys or a very simple two-step process of reading the pincode and then programming the key's.

The connection to the vehicle is made using the ADC2011 or ADC2012 cable (depending on vehicle), which connects directly to the Star / CAN-C or RFH unit located in the vehicle (locations may vary between models).

Please see the application list below for vehicle coverage or on Info Quest.

Note: This software is available for Smart Pro only. No working key is required.

What else will I need?

Smart Pro / ADC2011 / ADC2012

Smart Pro

ADC2011 / ADC2012

DETAILS OFFER

OBD Master Cable

ADC2000B

Smart Aerial Required

No

Software category

A

Other Accessories Required

ADC2011 / ADC2012

APPLICATIONS

More to come...

Chrysler ADS2291

APPLICATION CHART - North / Central America

Dodge Ram (Proximity)
2019 to 2020

ADC2011

Maserati Ghibli (Proximity)
2018 to 2019

ADC2011

Maserati Levanti (Proximity)
2018 to 2019

ADC2012

Vehicle Name

Program Key

Program Remote

Is PINCODE Required?

PINCODE Reading

Cable Required

Is a working Key Required?

* Based on active testing in the field, some variation may occur, we cannot guarantee bypass success on ALL listed vehicles. 2019 models may still be in production by FCA and it's always possible they update or change their security which is beyond our control. Success has been at or near 100% on the vehicles shown here.
